Preliminary BULLETIN 1971 CENSUS OF CANADA

BULLETIN Provisoire RECENSEMENT DU CANADA 1971

23-8-71

No. 1

PRELIMINARY POPULATION COUNTS

The first results of the 1971 Census of Canada, as they become available, are presented in a series of releases showing the preliminary counts of population as of June 1. These counts relate to incorporated cities, towns and villages in Canada, as well as to other types of organized units below the province and county level, such as townships, municipalities, parishes, municipal districts and local improvement districts.

The population counts shown in this bulletin are subject to revision. For example, these counts do not include persons enumerated at a temporary address (e.g., hotels, general hospitals, boarding-schools, etc.) who will be added to the population totals at their usual place of residence, if they were not already enumerated there. In most cases, however, the figures shown in these preliminary releases will be a close approximation to the final population counts.

Final figures, which will include province, county (or census division) and electoral district counts will be issued at a later date.

CHIFFRES PROVISOIRES DE POPULATION

Les premiers résultats du recensement du Canada de 1971 sont présentés, à mesure de leur disponibilité, dans une série de bulletins contenant les chiffres provisoires de population au 1^{er} juin. Ces chiffres concernent les cités, villes et villages constitués du Canada, de même que les autres divisions municipalisées plus petites qu'une province ou qu'un comté, comme les cantons, les municipalités, les paroisses, les districts municipaux, les districts d'améliorations locales.

Les chiffres de population présentés ici sont sujets à rectification. Par exemple, ils ne comprennent pas les personnes recensées à une adresse temporaire (hôtels, hôpitaux généraux, pensionnats, etc.), qui seront ajoutées aux chiffres de population à leur lieu de résidence habituelle, si elles n'y ont pas déjà été recensées. Dans la plupart des cas, toutefois, les chiffres communiqués dans les bulletins provisoires seront très voisins des chiffres définitifs de population.

Les résultats définitifs, qui comprendront les chiffres par province, comté (ou division de recensement) et circonscription électorale, seront publiés plus tard.

Preliminary BULLETIN 1971 CENSUS OF CANADA

BULLETIN Provisoire RECENSEMENT DU CANADA 1971

9-9-71

No. 2

PRELIMINARY POPULATION COUNTS

The first results of the 1971 Census of Canada, as they become available, are presented in a series of releases showing the preliminary counts of population as of June 1. These counts relate to incorporated cities, towns and villages in Canada, as well as to other types of organized units below the province and county level, such as townships, municipalities, parishes, municipal districts and local improvement districts.

The population counts shown in this bulletin are subject to revision. For example, these counts do not include persons enumerated at a temporary address (e.g., hotels, general hospitals, boarding-schools, etc.) who will be added to the population totals at their usual place of residence, if they were not already enumerated there. In most cases, however, the figures shown in these preliminary releases will be a close approximation to the final population counts.

Final figures, which will include province, county (or census division) and electoral district counts will be issued at a later date.

CHIFFRES PROVISOIRES DE POPULATION

Les premiers résultats du recensement du Canada de 1971 sont présentés, à mesure de leur disponibilité, dans une série de bulletins contenant les chiffres provisoires de population au 1^{er} juin. Ces chiffres concernent les cités, villes et villages constitués du Canada, de même que les autres divisions municipalisées plus petites qu'une province ou qu'un comté, comme les cantons, les municipalités, les paroisses, les districts municipaux, les districts d'améliorations locales.

Les chiffres de population présentés ici sont sujets à rectification. Par exemple, ils ne comprennent pas les personnes recensées à une adresse temporaire (hôtels, hôpitaux généraux, pensionnats, etc.), qui seront ajoutées aux chiffres de population à leur lieu de résidence habituelle, si elles n'y ont pas déjà été recensées. Dans la plupart des cas, toutefois, les chiffres communiqués dans les bulletins provisoires seront très voisins des chiffres définitifs de population.

Les résultats définitifs, qui comprendront les chiffres par province, comté (ou division de recensement) et circonscription électorale, seront publiés plus tard.

Preliminary BULLETIN 1971 CENSUS OF CANADA

BULLETIN Provisoire RECENSEMENT DU CANADA 1971

6-10-71

No. 3

PRELIMINARY POPULATION COUNTS

The first results of the 1971 Census of Canada, as they become available, are presented in a series of releases showing the preliminary counts of population as of June 1. These counts relate to incorporated cities, towns and villages in Canada, as well as to other types of organized units below the province and county level, such as townships, municipalities, parishes, municipal districts and local improvement districts.

The population counts shown in this bulletin are subject to revision. For example, these counts do not include persons enumerated at a temporary address (e.g., hotels, general hospitals, boarding-schools, etc.) who will be added to the population totals at their usual place of residence, if they were not already enumerated there. In most cases, however, the figures shown in these preliminary releases will be a close approximation to the final population counts.

Final figures, which will include province, county (or census division) and electoral district counts will be issued at a later date.

CHIFFRES PROVISOIRES DE POPULATION

Les premiers résultats du recensement du Canada de 1971 sont présentés, à mesure de leur disponibilité, dans une série de bulletins contenant les chiffres provisoires de population au 1^{er} juin. Ces chiffres concernent les cités, villes et villages constitués du Canada, de même que les autres divisions municipalisées plus petites qu'une province ou qu'un comté, comme les cantons, les municipalités, les paroisses, les districts municipaux, les districts d'améliorations locales.

Les chiffres de population présentés ici sont sujets à rectification. Par exemple, ils ne comprennent pas les personnes recensées à une adresse temporaire (hôtels, hôpitaux généraux, pensionnats, etc.), qui seront ajoutées aux chiffres de population à leur lieu de résidence habituelle, si elles n'y ont pas déjà été recensées. Dans la plupart des cas, toutefois, les chiffres communiqués dans les bulletins provisoires seront très voisins des chiffres définitifs de population.

Les résultats définitifs, qui comprendront les chiffres par province, comté (ou division de recensement) et circonscription électorale, seront publiés plus tard.

Preliminary BULLETIN 1971 CENSUS OF CANADA

BULLETIN Provisoire RECENSEMENT DU CANADA 1971

18-10-71

No. 4

PRELIMINARY POPULATION COUNTS

The first results of the 1971 Census of Canada, as they become available, are presented in a series of releases showing the preliminary counts of population as of June 1. These counts relate to incorporated cities, towns and villages in Canada, as well as to other types of organized units below the province and county level, such as townships, municipalities, parishes, municipal districts and local improvement districts.

The population counts shown in this bulletin are subject to revision. For example, these counts do not include persons enumerated at a temporary address (e.g., hotels, general hospitals, boarding-schools, etc.) who will be added to the population totals at their usual place of residence, if they were not already enumerated there. In most cases, however, the figures shown in these preliminary releases will be a close approximation to the final population counts.

Final figures, which will include province, county (or census division) and electoral district counts will be issued at a later date.

CHIFFRES PROVISOIRES DE POPULATION

Les premiers résultats du recensement du Canada de 1971 sont présentés, à mesure de leur disponibilité, dans une série de bulletins contenant les chiffres provisoires de population au 1^{er} juin. Ces chiffres concernent les cités, villes et villages constitués du Canada, de même que les autres divisions municipalisées plus petites qu'une province ou qu'un comté, comme les cantons, les municipalités, les paroisses, les districts municipaux, les districts d'améliorations locales.

Les chiffres de population présentés ici sont sujets à rectification. Par exemple, ils ne comprennent pas les personnes recensées à une adresse temporaire (hôtels, hôpitaux généraux, pensionnats, etc.), qui seront ajoutées aux chiffres de population à leur lieu de résidence habituelle, si elles n'y ont pas déjà été recensées. Dans la plupart des cas, toutefois, les chiffres communiqués dans les bulletins provisoires seront très voisins des chiffres définitifs de population.

Les résultats définitifs, qui comprendront les chiffres par province, comté (ou division de recensement) et circonscription électorale, seront publiés plus tard.

Preliminary BULLETIN 1971 CENSUS OF CANADA

BULLETIN Provisoire RECENSEMENT DU CANADA 1971

8-11-71

No. 5

PRELIMINARY POPULATION COUNTS

The first results of the 1971 Census of Canada, as they become available, are presented in a series of releases showing the preliminary counts of population as of June 1. These counts relate to incorporated cities, towns and villages in Canada, as well as to other types of organized units below the province and county level, such as townships, municipalities, parishes, municipal districts and local improvement districts.

The population counts shown in this bulletin are subject to revision. For example, these counts do not include persons enumerated at a temporary address (e.g., hotels, general hospitals, boarding-schools, etc.) who will be added to the population totals at their usual place of residence, if they were not already enumerated there. In most cases, however, the figures shown in these preliminary releases will be a close approximation to the final population counts.

Final figures, which will include province, county (or census division) and electoral district counts will be issued at a later date.

CHIFFRES PROVISOIRES DE POPULATION

Les premiers résultats du recensement du Canada de 1971 sont présentés, à mesure de leur disponibilité, dans une série de bulletins contenant les chiffres provisoires de population au 1^{er} juin. Ces chiffres concernent les cités, villes et villages constitués du Canada, de même que les autres divisions municipalisées plus petites qu'une province ou qu'un comté, comme les cantons, les municipalités, les paroisses, les districts municipaux, les districts d'améliorations locales.

Les chiffres de population présentés ici sont sujets à rectification. Par exemple, ils ne comprennent pas les personnes recensées à une adresse temporaire (hôtels, hôpitaux généraux, pensionnats, etc.), qui seront ajoutées aux chiffres de population à leur lieu de résidence habituelle, si elles n'y ont pas déjà été recensées. Dans la plupart des cas, toutefois, les chiffres communiqués dans les bulletins provisoires seront très voisins des chiffres définitifs de population.

Les résultats définitifs, qui comprendront les chiffres par province, comté (ou division de recensement) et circonscription électorale, seront publiés plus tard.
